

Rateon Terms of Service

Last updated on January 11, 2026

By using the Rateon Discord application (referred to as “bot” or “Service” hereafter), you agree to be bound by these Terms of Service. If you disagree with these Terms, you are prohibited from using the Service.

Acceptable Use

The Service may only be used within the scope of its intended purpose, under these Terms and applicable law. Users are solely responsible for making sure that their use of the Service violates none of our Terms nor applicable law or regulations. We reserve the right to take any appropriate measures to protect the interests of the Service, including but not limited to denying access to the Service.

Service Availability

The Service is provided on an “as-is” and “as-available” basis. We do not guarantee that the Service will always be available, uninterrupted, or error-free. Availability and response time depend on three server providers that we cannot control directly: 1) the bot's host, 2) the Discord API for sending application commands, and 3) the Geometry Dash API for accessing any data. Features may be modified, suspended, or discontinued at any time without notice.

Termination

We may terminate your access to our Service, without prior notice or liability, if you breach these Terms or if the Service ceases operation. Upon termination, your right to use the Service will cease immediately.

Linked Accounts

Certain features of the Service require you to voluntarily link your Discord account with a Geometry Dash account using the `"/link"` command. By using this feature, you confirm that you are authorized to link the specified Geometry Dash account. You may remove a linked account at any time using the `"/unlink"` command. Refer to our Privacy Policy for details on how linked account data is stored and deleted.

Limitation of Liability

To the fullest extent permitted by applicable law, we shall not be liable for any indirect, incidental, special, or consequential damages arising out of or related to your use of the Service. This includes, but is not limited to, loss of data, loss of access, or incorrect or outdated information retrieved from external sources like the Geometry Dash servers.

Modifications

We may revise our Terms of Service or Privacy Policy. If so, we will make reasonable efforts to notify you through the Service at least two weeks in advance. By using the Service, you agree to be bound by the current version at any given time. Refer to our Privacy Policy if you wish to delete your data due to any future changes to these Terms.
